

Chemistry worksheet

Assignment - 12

Std - VI

Ques-1 Complete the following table.

S.No.	Element's name	Symbol
1.	Hydrogen	_____
2.	_____	He
3.	Lithium	_____
4.	Beryllium	_____
5.	_____	B
6.	Carbon	_____
7.	Nitrogen	_____
8.	_____	O
9.	_____	F
10.	Neon	_____
11.	Sodium	_____
12.	_____	Mg
13.	Aluminium	_____
14.	_____	Si
15.	Phosphorus	_____
16.	Sulphur	_____

Assignment - 10

Std - VI

Chemistry worksheet

Ques-1 Fill in the blanks:

(a) Detergents are synthetic water soluble cleaning agents.

(b) Glycerine is a stain removal which softens stains on wool.

(c) Van Helmont discovered carbon dioxide gas on heating charcoal in air.

(d) Science is an attempt to understand the world around us.

(e) Dimitri Mendeleev was a Russian scientist who formulated the "Periodic Table of elements."

(f) Cosmetics enhance or alter the appearance of a person.

Ques-2 Draw the following apparatus and also write one function of each.

(a) Test tube

Ans- It is used for heating chemicals and studying reactions in solution.

(b) Beaker

Ans- It is used for holding, pouring and mixing solutions.

(c) Conical flask

Ans- It is used for storage of various liquids.

(d) Funnel

Ans- It is used for pouring reactants and to do filtration.
